## Education and Training Voucher (ETV) Program

The ETV Program allows Idaho to help youth make a smoother transition to self-sufficiency and independence by providing funding that will help them receive an education, training and services not covered by another funding source. Funds are available for youth who have been, or are currently in living in, foster care for at least 90 days between the ages of 15 and 18 to attend colleges, universities or vocational training institutions.

The ETV Program can help with residential housing, room and board costs, fees/tuition, personal items, books/supplies, child care, transportation needs, computer or other required equipment, cost for attendance at an institution of higher education that does not exceed the lesser of \$5,000 per year or the total cost of attendance as defined in section 472 of the Higher Education Act.
